ANNEXURE TO THE NOTICE

Explanatory Statement Pursuant to Section 102 of the Companies Act, 2013

The following Explanatory Statement sets out all the material facts relating to items of business as mentioned in Item No(s). 5 to 11 under Special Business in the accompanying Notice dated 24th May, 2019 convening the Annual General Meeting.

ITEM NO. 5

The Company had, pursuant to the provisions of Sections 149, 152 read with Schedule IV and other applicable provisions, if any, of the Companies Act, 2013 ('Act') and Rules framed thereunder and the erstwhile Clause 49 of the Listing Agreement entered with the Stock Exchanges, appointed Mr. Vinod Kumar Beswal, as Non-Executive Independent Director at the 49th Annual General Meeting of the Company held on 13th September, 2014, for a period of 5 (five) consecutive years with effect from 13th September, 2014 which period will be expiring on 12th September, 2019.

Pursuant to Section 149(10) of the Act, an Independent Director shall hold office for a term of upto five consecutive years on the Board of a Company, but shall be eligible for re-appointment on passing a Special Resolution by the Company.

The Nomination and Remuneration Committee has recommended the re-appointment of Mr. Vinod Kumar Beswal, as Independent Director from 13th September, 2019 to 31st March, 2024.

Mr. Vinod Kumar Beswal, Independent Director of the Company, has given a declaration that he meets the criteria of Independence as provided under section 149(6) of the Companies Act, 2013 and under the Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 [Listing Regulations, 2015] and also confirmed that he is not debarred from holding the office of Director by virtue of any SEBI order or any other such authority. ANNEXURE-7

REPORT ON CORPORATE GOVERNANCE

The Directors present their Report on Corporate Governance as required by the SEBI guidelines and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015:

Company's Philosophy on Code of Governance:

The Company's philosophy on Corporate Governance envisages transparency with integrity in all its dealings with its Stakeholders including Shareholders, Employees, Lenders and Others.

Code of Conduct:

In tune with the corporate philosophy stated in the preceding para, the Board of Directors of the Company in its meeting held on 29th October, 2005 laid down a Code of Conduct for all the Board Members and Senior Management Personnel of the Company in terms of the requirement of clause 49 of the Listing Agreement and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as 'Listing Regulations'). The Code of Conduct is displayed at the Company's website www.amjland.com. Affirmation regarding compliance with the Code of Conduct had been obtained from all Board members and senior management personnel of the Company. As required, a declaration duly signed by the Whole Time Director & CFO to the effect is appended.

BOARD PROCEDURE:

Board Meetings are held about four-five times a year. Detailed Agenda is sent to each Director well in advance of the meetings. The Directors are briefed at each Board Meeting regarding performance and working by the functional heads. In addition to matters statutorily requiring Board's approval, all major decisions of policy, strategic formulations, capital expenditure, new investments, major accounting policies are considered by the committees and/ Board. Board periodically reviews all the compliances of applicable laws affecting the Company.

MANAGEMENT DISCUSSION AND ANALYSIS:

The Real Estate business, in general, is going through recessionary trends marked by slow demand. However, in view of the goodwill generated by the residential project 'Greens' at Pune and in satisfactorily handing over of the apartments comprised in 6 buildings as also continuing enquiries for more apartments, the Company does not expect major difficulties in their sale as and when any new building is launched.

Development of 12 acres of land under Partnership arrangement for residential purpose and of about 2 acres land for residential cum commercial purpose, both at Pune, are pending for want of approvals.

The 30 acres (approximate) of land at Pune is under occupation of Pudumjee Paper Products Ltd. in terms of Leave & License agreement entered into pursuant to the Scheme of Demerger sanctioned by the Bombay High Court in 2016.

The Company also holds about 27% equity shares in Pudumjee Plant Laboratories Ltd. (PPLL) which owns land of about 24 acres near Hinjewadi, Pune. The Company has purchased zero per cent Preference Shares of the Company as a part of its investments towards settlement of dispute in the land with a third party. The Company also extends interest bearing loan to PPLL.

The three Wind Mills supply generated power under Open Access arrangement to a Hospital and Pudumjee Paper Products Limited. The aggregate generation of power was 69.74 lakhs Kwh during the year. The sales price of R.E. Certificates has also improved during the year by about 20%. Though the power supply is subject to levy of Cross Subsidy Surcharge (CSS) and Additional Surcharge (ASC), the power supplied continues to be exempt from electrical duty for a period of 10 years from the date the respective plants were set up.

Segment wise financial performance is stated in the accompanying Accounts.

The Audit Committee periodically reviews the existing internal controls of the Company which have been considered quite adequate.

The Company's land at Pune are considered by the Government authorities as subject to the provisions of the repealed Urban Land Ceiling Act, 1976 since some of the land of the Company were exempt under that law at the relevant time, though the Company believes that the said law is no more applicable to the land held by it.

AMJ LAND HOLDINGS LIMITED

Frequent Changes in the policy of the Government with a view to discourage power supply under Open Access arrangement are always a cause of concern which usually causes either abnormal delay in granting NOC or imposition of high level of Cross Subsidy and Surcharge and other levies. The Company usually links the Agreement of Power Supply to the price leviable by the State Distribution Company to the prospective consumer by building therein an agreed discount. The Management, therefore, continues to review options as and when the regulations for levies change.

Key Financial Ratios:

Sr. No.	Ratios	31 st March, 2019	31 st March, 2018	% Change	Reason for Change
1	Interest Coverage Ratio	98.07	31.04	216%	Due to repayment of wind mill loan entirely.
2	Total Debt Equity Ratio	3.24	7.60	-59.32%	Advance from customers against sale of flats stood decreased owing to the completion of Building GH.
3	Current Ratio	6.40	4.44	44%

ANNEXURE NO-9

CRITERIA FOR SELECTION OF CANDIDATES FOR SENIOR MANAGEMENT AND MEMBERS ON THE BOARD OF DIRECTORS

Introduction:

In accordance with the provisions of Section 178 of the Companies Act, 2013, the Board of Directors of the Company at its meeting held on 01.11.2014, re-constituted the existing Remuneration Committee by changing its nomenclature as Nomination and Remuneration Committee of the Board of Directors (Committee) and also stipulated additional terms of reference in line with the Companies Act, 2013.

The Board has delegated the responsibility to the Committee to formulate the criteria for identification, selection of the candidates fit for the various positions in senior management and who are qualified to be appointed as Director on the Board of Directors of the Company.

The Committee has adopted the following criteria for selection of candidates eligible to be appointed in the Senior Management of the Company and also Member on the Board of Directors of the Company.

Criteria for Selection of Directors:

The Committee shall, before making any recommendation to the Board for appointment of any Director, consider the following;

- the candidate should have appropriate experience both in terms of quality and time in any of the areas viz. banking, infrastructure, financial management, legal, sales, marketing, administration, research, corporate governance, technical operations, or such other areas or disciplines which in the opinion of the management and Committee are relevant for the Company's business;
- the candidate should possess the positive attributes such as leadership skills, decision making skills, integrity, effective communication, hard work, commitment and such other attributes which in the opinion of the Committee the candidate possess and are in the interest of the Company;
- the candidate should be free from any disqualifications as provided under Sections 164 and 167 of the Companies Act, 2013;
- the candidate should meet the conditions of being independent as stipulated under the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015, in case of appointment of an independent director;
- the candidate should possess appropriate skills, experience and knowledge in one or more fields of finance, law, management, sales, marketing, administration, research, corporate governance, technical operations, infrastructure, or such other areas or disciplines which are relevant for the Company's business;

The Committee should also verify that the said person is not debarred from holding the office of Director pursuant to any SEBI order or any other such authority.

Criteria for Selection of Senior Management Personnel:

The term 'Senior Management' shall have the meaning provided under the explanation to Section 178 of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended with effect from 1st April, 2019, as provided herewith -

As per Section 178 of the Companies Act, 2013,

The expression "senior management" means personnel of the company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, including the functional heads.

As per SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended with effect from 1st April, 2019

- "senior management" shall mean officers/personnel of the listed entity who are members of its core management team excluding board of directors and normally this shall comprise all members of management one level below the chief executive officer/managing director/whole time director/manager (including chief executive officer/manager, in case they are not part of the board) and shall specifically include company secretary and chief financial officer.

The Committee shall, before making any recommendation to the Board, for appointment, consider the attributes of the candidate set forth below:

- The candidate should have appropriate experience both in terms of quality and time in any of the areas viz. banking, infrastructure, financial management, legal, sales, marketing, administration, research, corporate governance, technical operations, or such other areas or disciplines which in the opinion of the management and Committee are relevant for the Company's business;
- The candidate should possess the positive attributes such as leadership skills, decision making skills, integrity, effective communication, hard work, commitment and such other attributes which in the opinion of the Committee the candidate possess and are in the interest of the Company.

If the Committee finds that the candidate meets the above criteria for appointment as part of Senior Management or as a Director on the Board, as the case may be, the Committee shall make its recommendation to the Board.

INDEPENDENT AUDITOR'S REPORT

To

The Members of AMJ Land Holdings Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of AMJ Land Holdings Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>Recognition, measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 “Revenue from Contracts with Customers” (new revenue accounting standard).</p> <p>The application of the new revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, and determining when performance obligation is satisfying over time. Determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognised over a period. Additionally, new revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p> <p>As per the terms of the contract with customer, the management has concluded that, the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date. Hence the revenue from real estate project have been recognised in accordance with Ind AS 115 using input method (i.e. percentage of completion method), as performance obligation satisfied over time.</p> <p>Refer Notes 2 (c) and Note 33 to the Standalone Financial Statements</p>	<p>Our procedure included, but were not limited to the following:</p> <p>We assessed the Company's process to identify the impact of adoption of the new revenue accounting standard.</p> <p>Selected a sample of continuing and new contracts and performed the following procedure:</p> <ul style="list-style-type: none"> • Read, analysed and identified the distinct performance obligations in these contracts and Compared these performance obligations with that identified and recorded by the Company. • In respect of revenue for real estate project contracts recorded by the Company being share of its revenue in the Joint operation, we have obtained Ind AS financial statement of the Joint operation along with the other auditor's report thereon. Obtained one sample contract with customer, read and assessed the judgement made by the management in determining that the performance obligation satisfying over time and transaction price allocated to the same. Obtained information from management of historical trend of cancellation and ultimate completion of such contracts. • We reviewed the collation of information and the logic of the report generated from the system including data generated manually, used to prepare the disclosure relating to the periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.
<p>Investment in financial instruments of Associate company - classification, measurement and impairment</p> <p>During the year, the Company has invested in compound financial instrument, being zero percent non-cumulative preference shares, of Pudumjee Plant Laboratories Limited (associate company).</p> <p>These preference shares are redeemable/convertible into equity share at the option of the issuer i.e. the associate company.</p> <p>In accordance with Ind AS 32, the investment has been classified as investment in equity instrument of associate company. The same has been measured at cost in standalone financial statements, as per Ind AS 27.</p> <p>The Company has also given loan repayable on demand to the associate company. The same is classified as 'Loans' in 'Current financial assets' and measured at amortised cost using effective interest rate based on management's estimate.</p> <p>Based on the Valuation report of the valuation specialist engaged by the management, and based on management estimate, no impairment considered necessary for the investments made in associate company.</p>	<p>Our procedure included, but were not limited to the following:</p> <ul style="list-style-type: none"> • We considered the business model and terms of the financial instrument considering rights and obligation of the issuer and the holder including terms of cash flow. • Obtained independent valuation report containing valuation of the associate company. Assessed the professional competence, objectivity and capabilities of the valuation specialist engaged by the management. Assessed reasonableness of the assumptions used and current and future business plans of the business of the Associate Company's management.

Other Information

The Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Company's Annual Report but does not include the standalone financial statements and our auditor's report thereon.

The Annual Report is expected to be made available to us after the date of our auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, the profit and total comprehensive income, changes in equity and its cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Misstatements can arise due to fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of a jointly controlled entity (M/s. Pudumjee G:Corp Developers). The standalone financial statements include the Company's share of its total assets of ₹ 1385.22 lakhs as at March 31, 2019, total revenue of ₹ 1528.68 lakhs, total comprehensive income (comprising of profit and other comprehensive income) of ₹ 355.89 lakhs and net cash flows/ (outflow) of ₹ (73.89) lakhs for the year ended on that date. These financial statements have been audited by other auditor whose report have been furnished to us by the Management. Our opinion on the standalone financial results and our report in terms the Act, insofar as it relates to the amounts and disclosures included in respect of the jointly controlled entity, is based solely on the report of the other auditor.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

- (e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure B.
- (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations as at March 31, 2019 which would impact its financial position;
 - ii. The Company did not have any long-term contracts including derivative contracts as at March 31, 2019;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2019;
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2019.

3. With respect to the other matters to be included in the Auditor's Report under section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act.

Referred to in the Independent Auditors' Report of even date to the members of AMJ Land Holdings Limited on the standalone financial statements as of and for the year ended March 31, 2019

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of immovable properties, as disclosed in Note 3 and Note 4 on property, plant and equipment and investment properties to the financial statements, are held in the name of the Company.
- ii. The physical verification of inventory excluding stocks with third parties have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. No material discrepancies were noticed on such physical verification.
- iii. The Company has granted unsecured loans, to three companies covered in the register maintained under Section 189 of the Act.
 - (a) In respect of the aforesaid loans, the terms and conditions under which such loans were granted are not prejudicial to the Company's interest.
 - (b) In respect of the aforesaid loans, no schedule for repayment of principal has been stipulated by the Company. Therefore, in absence of stipulation of repayment terms we do not make any comment on the regularity of repayment of principal. The parties are regular in payment of interest as applicable.
 - (c) In respect of the aforesaid loans, there is no amount which is overdue for more than ninety days.
- iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues, including provident fund, professional tax, income tax, goods and service tax and other material statutory dues, as applicable, with the appropriate authorities.
- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of income tax, sales-tax, goods and service tax which have not been deposited on account of any dispute.
- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or Government as at the balance sheet date.

- ix. During the year ended March 31, 2019, the Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- xi. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- xiv. The Company has not made any preferential allotment or private placement of shares or convertible debentures during the year under audit. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
- xv. The Company has not entered into any non cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Referred to in the Independent Auditors' Report of even date to the members of AMJ Land Holdings Limited on the standalone financial statements for the year ended March 31, 2019

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of AMJ Land Holdings Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements as on and for the year ended 31st March, 2019

Note 1: General information about the Company:

AMJ Land Holdings Limited (formerly Pudumjee Pulp and Paper Mills Limited) (the "Company") is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The registered office of the Company is located at Thergaon, Pune-411033, Maharashtra, India. The Company is primarily engaged in the business of real estate development, leasing and wind power.

The standalone financial Statements were authorised for issue in accordance with resolution passed by the Board of Directors of the Company on May 24, 2019.

Note 2: Summary of significant accounting policies:

a. Basis of preparation

The standalone financial statements of the Company comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

In accordance with Ind AS 111 Joint Arrangements, the standalone financial statements also includes the Company's share of assets, liabilities, revenues and expenses relating to its interest in a Joint operation.

The financial statements have been prepared on the historical cost basis except for a land converted into stock-in-trade as explained in note 7, and certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either, in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

b. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within the operating cycle or twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within the operating cycle or twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The normal operating cycle in respect of operation relating to under construction real estate project depends on signing of the agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realisation of the project into cash and cash equivalents and range from 3 to 7 years. Accordingly, project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of 12 months.

c. Revenue Recognition

The Company derives revenues primarily from real estate projects i.e. construction and sale of real estate properties, and from leasing of real estate (together called as "Real estate business"). And from sale of wind power and renewable energy certificates (REC) (together called as "Wind power business").

Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised significant accounting policies related to revenue recognition.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment i.e. adjusted for discounts, incentive, time value of money and excluding taxes or duties collected on behalf of the government. No element of financing deemed present, as the sales are made with a credit term consistent with market practice. Further the Company charges interest to customers on delayed payment, if any.

Revenue from real estate projects, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Costs/ input expended have been used to measure progress towards completion as there is a direct relationship between cost incurred and creation/enhancement of asset (i.e. property). As per this method, revenue from sale of properties is recognised in proportion to the actual cost incurred as against the total estimated cost of projects under execution.

Determination of revenues under the percentage of completion method necessarily involves making estimates, some of which are of technical nature. The estimates of project cost and the revenue thereon are reviewed periodically by management and the cumulative effect of any changes in estimates is recognised in the period in which such changes are determined. Where it is probable that total project expenses will exceed total revenues from a project, the expected loss is recognised immediately as an expense in the statement of profit and loss.

Revenue from lease of real estate, arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms.

Revenue from the sale of wind power is recognised when earned on the basis of contractual arrangement with the customers and reflects the value of electric units supplied including an estimated value of units supplied to the customers between the date of their last meter reading and year end.

d. Other income

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in other income in the statement of profit and loss.

Dividends

Income from dividend on investments is accrued in the year in which it is declared, whereby the Company's right to receive is established.

e. Trade receivables and Contract balances

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time.

Revenue from real estate projects contracts is based on percentage of completion method. Invoicing to the customers is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues). Trade receivable and unbilled revenues are presented net of impairment, if any in the Balance Sheet.

f. Property, plant and equipment

Property, plant and equipment, Capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life as per Schedule II
Building	30	30
Plant and Machinery	25	25
Vehicles	8	8
Furniture and Fixture	10	10

The Company, based on technical assessment made by technical expert and management estimate, depreciates all the assets over estimated useful life which is also the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

g. Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation (as applicable to building component) and accumulated impairment loss, if any. Repair and maintenance costs are recognised in profit or loss as incurred.

The Company, based on technical assessment made by technical expert and management estimate, depreciates the building over estimated useful life of 30 years, which is also the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by the management. External valuers are involved in determination of the fair values on a need basis.

h. Inventory

Inventory comprises of stock of raw material, completed properties for sale and properties under construction. Construction work-in-progress comprises cost of land, development rights, construction and development cost, cost of material, services and other overheads related to projects under construction. Inventory is valued at cost or net realizable value whichever is lower.

Land treated as stock in trade duly revalued at fair market value on the date of treatment, is carried at that value. Development expenses incurred thereon including overheads are clubbed with Construction work-in-progress.

i. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly stated in the arrangement.

Company as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

j. Taxes

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss of the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rate enacted or substantially enacted at the reporting date.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which those can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable Company and the same taxation authority.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

k. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

l. Provisions and Contingent liability

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in the notes, if any. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

m. Employee benefits

Short-term obligations

Short-term employee benefit are expensed as the related service is provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within one year after the end of the period in which the employees render the related service are the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly amounts have been classified as current and non current based on actuarial valuation report.

Post-employment obligations

The Company operates the following post-employment schemes:

- i. defined benefit plan - gratuity; and
- ii. defined contribution plans such as provident fund and superannuation fund.

Defined benefit plans

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. If the fair value of plan assets exceeds the present value of the defined benefit obligation at the end of the balance sheet date, then excess is recognized as an asset to the extent that it will lead to, for example, a reduction in future contribution to plan asset.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

Retirement benefit in the form of provident fund and superannuation fund are defined contribution schemes. The Company has no obligation, other than the contribution payable to the provident fund and superannuation fund. The Company recognizes contribution payable to the provident fund and superannuation fund as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

n. Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value, except for investment in subsidiaries, associates, joint operation or joint venture where the Company has availed option to recognise the same at cost in separate financial statements.

The classification depends on the Company's business model for managing the financial asset and the contractual terms of the cash flows. The Company classifies its financial assets in the following measurement categories:

- i. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss),
- ii. those measured at amortised cost, and
- iii. those measured at cost, in separate financial statements.

Subsequent measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. All other financial assets are measured at amortised cost, using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss financial assets that are not fair valued.

The Company follows 'simplified approach' for recognition of impairment loss for trade receivables that have no significant financing component. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized, is recognized under the head 'other expenses'

in the statement of profit and loss.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

De-recognition of financial assets

The Company derecognizes a financial asset when -

- i. the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109.
- ii. it retains contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the entity has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to extent of continuing involvement in the financial asset.

Financial liabilities

Initial recognition

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification, as described below:

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within one year after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least one year after the reporting period.

o. Earnings per share

The basic earnings per share is computed by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The Company does not have any potential equity share or warrant outstanding for the periods reported, hence diluted earnings per share is same as basic earnings per share of the Company.

p. Segment reporting

Where a financial report contains both consolidated financial statements and separate financial statements of the parent, segment information needs to be presented only in case of consolidated financial statements. Accordingly, segment information has been provided only in the consolidated financial statements.

q. Standards issued but not yet effectiveInd AS 116 - Leases:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of profit & loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019.

The standard permits two possible methods of transition - 1) Full retrospective - Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors. 2) Modified retrospective - Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application. Certain practical expedients are available under both the methods.

On completion of evaluation of the effect of adoption of Ind AS 116, the Company is proposing to use the 'Modified Retrospective Approach' for transitioning to Ind AS 116, and take the cumulative adjustment to retained earnings, on the date of initial application (April 1, 2019). Accordingly, comparatives for the year ended March 31, 2019 will not be retrospectively adjusted. The Company has elected certain available practical expedients on transition.

The effect of adoption as on April 1, 2019 would majorly result in an increase in Right of use asset and corresponding increase in lease liability. The Company is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 12 - Income Taxes:

1) Introduction of Appendix C:

According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition - i) Full retrospective approach - Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives. The effect on adoption of Ind AS 12 Appendix C would not be material.

2) In connection with accounting for dividend distribution taxes:

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 19 - Employee Benefits:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19 in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity - 1) To use updated assumptions to determine current service cost and

net interest for the remainder of the period after a plan amendment, curtailment or settlement. 2) And to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The impact on account of this amendment would not be material.

Amendments to Ind AS 109 - Financial Instruments:

1) Classification of a financial instruments with prepayment feature with negative compensation:

Negative compensation arises where the terms of the contract of the financial instrument permit the holder to make repayment or permit the lender or issuer to put the instrument to the borrower for repayment before the maturity at an amount less than the unpaid amounts of principal and interest. Earlier, there was no guidance on classification of such instruments. According to the amendments, these types of instruments can be classified as measured at amortised cost, or measured at fair value through profit or loss, or measured at fair value through other comprehensive income by the lender or issuer if the respective conditions specified under Ind AS 109 are satisfied. The impact on account of this amendment would not be material.

2) Ind AS 109 excludes interest in associates and joint ventures that are accounted for in accordance with Ind AS 28, Investments in Associates and Joint Ventures from its scope. According to the amendments, Ind AS 109 should be applied to the financial instruments, including long-term interests in associates and joint venture, that, in substance, form part of an entity's net investment in associate or joint venture, to which the equity method is not applied. The Company is currently evaluating the effect of this amendment on the financial statements.

r. Critical accounting estimates and judgements

Revenue recognition

The Company uses percentage of completion method in accounting for real estate construction contracts, since it is concluded that in such contracts the performance obligation is satisfying over time. Use of the percentage of completion method requires the Company to estimate the costs expended to date as a proportion of the total costs to be expended. Costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Impairment of Trade receivables

The Company estimates the collectability of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

Income Taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

Defined benefit obligation

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, employee turnover rate and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Also refer note 11.

Classification of joint arrangements

The joint control agreement in relation to the Pudumjee G:Corp Developers require unanimous consent from all parties for all relevant activities. The two partners have direct rights to the assets of the partnership and are jointly and severally liable for the liabilities incurred by the partnership. This entity is therefore classified as a joint operation and the Company recognises its direct right to the jointly held assets, liabilities, revenues and expenses.

Estimation of fair value

The frequency of valuations depends upon the changes in fair values of the items of investment property being valued. Since frequent valuations are unnecessary, with only insignificant changes in fair value, the company obtains independent valuation for its investment properties once in five years. The fair values of investment properties have been determined by A.D.Joshi Chartered Engineers and Valuers LLP. The fair market value done by valuers is based on physical inspection of properties and using comparable transfer instances of the similar type of properties of nearby locations, and with the prevailing market rates. Appropriate depreciation is considered for buildings.

(i) Leave obligations -

The leave obligation covers the Company's liability for accumulated leaves that can be encashed or availed. The company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly amounts have been classified as current and non current based on actuarial valuation report.

(ii) Defined benefit plans:

- a Gratuity - The Company provides for gratuity for employees as per the terms of employment. Employees who are in continuous service at least for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is calculated at the last drawn monthly basic salary multiplied by 15 days salary for each completed years of service of the employee. The scheme is funded with Life Insurance Corporation of India (LIC).

In addition, employees who have completed 20 years of service are eligible to additional gratuity computed at last drawn monthly basic salary multiplied by 7 days salary for each completed years of service of the employee. The additional gratuity benefit is unfunded.

aa The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

Note 11 (Contd...)

The net liability disclosed above relates to unfunded plan. The Company has no legal obligation to settle the deficit in the unfunded plans with an immediate contribution or additional contribution. The Company intends to contribute in line with the recommendations of the fund administrator and the actuary.

- ab As at March 31, 2019 and March 31, 2018, plan assets were invested in funds managed by insurer (LIC).
ac Through its defined benefit plans, the group is exposed to number of risks, the most significant of which are detailed below:

Asset Volatility: The Plan liabilities are calculated using a discount rate set with reference to government bond yields. If plan assets underperform, this yield will create a deficit. The plan asset investments are in funds managed by insurer. These are subject to interest rate risk.

Changes in bond yield: A decrease in government bond yields will increase plan liabilities, although this may be partially offset by an increase in the returns from plan asset.

Defined benefit liability and employer contributions:

- ad The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within the framework, the Company's ALM objective is to match assets to the gratuity obligations by investing in funds with LIC in the form of a qualifying insurance policy.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the process used to manage its risks from previous periods.

- ae The Company expects to contribute ₹ 2 lakhs to the defined benefit plan during the next annual reporting period.
af The weighted average duration of the defined benefit obligation is 6.24 years (2018: 7.30 years). The expected maturity analysis of undiscounted pension and gratuity is as follows:

	Less than a year	Between 1 - 2 years	Between 2 - 5 years	Over 5 years	Total
31-Mar-19					
Defined benefit obligation gratuity	3.48	3.91	14.80	296.41	318.60
31-Mar-18					
Defined benefit obligation gratuity	3.26	3.68	15.07	359.34	381.35

The expected benefits are based on the same assumptions used to measure the Company's benefit obligations as of March 31, 2019.

be The principal assumptions used for the purpose of actuarial valuation are as follows:

Particulars	31-Mar-19	31-Mar-18
India		
Discount Rate *	7.80%	7.60%
Expected Rate of Return on Plan Assets **	7.60%	7.50%
Salary Escalation Rate ***	7.00%	7.00%
Rate of Employee Turnover	1.00%	1.00%

* Discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.

** The overall expected rate of return on assets is based on the expectation of the average long term rate of return expected on investments of the Fund during the estimated term of the obligations.

*** The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors, such as demand and supply in the employment market.

bf Sensitivity analysis - the increase / (decrease) in present value of defined benefit obligation to changes in principal assumptions:

Particulars	31-Mar-19		31-Mar-18	
	Amount	%	Amount	%
- 1% increase in discount rate	(5.63)	40.30%	(4.08)	-2.63%
- 1% decrease in discount rate	6.04	-43.22%	1.17	0.76%

- 1% decrease in rate of employee turnover	(0.14)	0.97%	(0.02)	-0.01%

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

b) Fair Value Hierarchy:-

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

c) Valuation technique used to determine fair value (Contd....)

Level 1: This hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchange is valued using the closing price as at the reporting period. The fair value of all mutual funds are arrived at by using closing Net Asset Value published by the respective mutual fund houses.

Level 2: Fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument as observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable data, the instrument is included in level 3. This is the case for unlisted equity securities.

d) As per Ind AS 107 "Financial Instrument:Disclosure", fair value disclosures are not required when the carrying amounts reasonably approximate the fair value. Accordingly fair value disclosures have not been made for the following financial instruments:-

1. Trade receivables
2. Cash and cash equivalent
3. Other bank balances
4. Security deposits
5. Interest accrued on deposits
6. Other payables
7. Borrowings
8. Trade payables
9. Capital creditors

Note 25:-FINANCIAL RISK MANAGEMENT

The Company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company.

a. MANAGEMENT OF CREDIT RISK

Credit risk is the risk that a counter party will not meet its obligations under a contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities and from its investing activities, including loans, deposits with banks and other financial instruments.

i) Trade Receivables

Trade receivables are generally unsecured. For real estate projects customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership, eliminating the credit risk in this respect.

Notes to the financial statements as on and for the year ended 31st March, 2019

(All amounts in INR lakhs unless otherwise stated)

Customer credit risk has always been managed by the company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis. The assessment is based on historical information of defaults.

The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers operate in largely independent markets. For real estate project the Company's average execution cycle ranges from 12 to 36 months based on the nature of project. The company's credit period generally ranges from 15-60 days.

The Company has a detailed review mechanism of overdue customer receivables at various levels within organisation to ensure proper attention and focus for realisation and based on assessment performed management has concluded that impact of expected credit loss is not material and current provision made against trade receivable is adequate to cover the provision on account of expected credit loss.

During the period, the Company made no write-offs of trade receivables. It does not expect to receive future cash flows or recoveries from receivables previously written off.

ii) Other financial assets:-

The Company maintains exposure in cash and cash equivalents, term deposits with banks, investments in money market liquid mutual funds. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company on an annual basis, and may be updated throughout the year. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Other financial assets that are potentially subject to credit risk consists of inter corporate loans. The company assesses the recoverability from these financial assets on regular basis. Factors such as business and financial performance of counterparty, their ability to repay, regulatory changes and overall economic conditions are considered to assess future recoverability. The company charges interest on such loans at arms length rate considering counter party's credit rating. Based on the assessment performed, the company considers all the outstanding balances of such financial assets to be recoverable as on balance sheet date and no provision for impairment is considered necessary.

The Company's maximum exposure to credit risk is the carrying value of each class of financial assets.

iii) Reconciliation of loss allowance provision:

Particulars	Trade receivables	Other financial assets
Loss allowance on 1 April 2018	(6.54)	-
Changes in loss allowance	-	-
Loss allowance on 31 March 2019	(6.54)	-

b. MANAGEMENT OF LIQUIDITY RISK

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses or risking damage to company's reputation. In doing this, management considers both normal and stressed conditions.

Notes to the financial statements as on and for the year ended 31st March, 2019

(All amounts in INR lakhs unless otherwise stated)

Note 25(b) (Contd...)

Management monitors the rolling forecast of the company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents. The company has access to funds from debt markets through loan from banks. The company invests its surplus funds in bank deposits and debt based mutual funds.

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

c. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types of risk i.e. currency rate, interest rate and other price related risks. Financial instruments affected by market risk include loans and borrowings, deposits and investments.

i.) Currency Risk and sensitivity:-

The Company does not have any currency risk as all operations are within India.

ii.) Interest Rate Risk and Sensitivity:-

Interest rate risk is the risk that the fair value or future cash flows on a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the company's interest rate position. Various variables are considered by the management in structuring the company's investment to achieve a reasonable, competitive, cost of funding.

(All amounts in INR lakhs unless otherwise stated)

Note 25(c) (Contd...)

Exposure to interest rate risk

The exposure of the company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	31-Mar-19	31-Mar-18
Financial Liabilities		
Variable rate instruments	335.94	780.51
Fixed rate instruments	-	12.85
Total	335.94	793.36
Financial Assets		
Variable rate instruments	3,201.61	1,863.54
Total	3,201.61	1,863.54

Cash flow sensitivity analysis for variable rate instruments:-

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	Profit /(loss)	
	100bp increase	100bp decrease
March-19		
Financial liabilities (Variable rate instruments)	(3.36)	3.36
Financial Assets (Variable rate instruments)	32.02	(32.02)

March-18		
Financial liabilities (Variable rate instruments)	(7.81)	7.81
Financial Assets (Variable rate instruments)	18.64	(18.64)
	10.83	(10.83)

The company does not have any additional impact on equity other than impact on retained earnings.

iii) Price Risk and Sensitivity:

The Company is mainly exposed to the price risk due to its investment in debt mutual funds and investment Equity instruments carries at FVOCI. The price risk arises due to uncertainties about the future market values of these investments. At 31st March 2019, the investments in debt mutual funds amounts to INR 149.29 lacs (31-Mar-2018: INR 937.82 lacs). These are exposed to price risk.

The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in debt mutual funds.

A 1% increase in prices would have led to approximately an additional INR 1.49 lacs gain in the Statement of Profit and Loss (2017-18: INR 9.37 lacs gain). A 1% decrease in prices would have led to an equal but opposite effect. The company also have investment in equities of other companies. The company treats the investment as strategic and thus fair value the investment through OCI. Thus the changes in the market price of the securities are reflected under OCI and hence not having impact on profit and loss. The profit or loss on sale will be considered at the time of final disposal or transfer of the investment. Also investment in associates, subsidiaries and joint venture are carried at cost.

INDEPENDENT AUDITOR'S REPORT

To The Members of AMJ Land Holdings Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of AMJ Land Holdings Limited ("the Holding Company"), and its subsidiary company Pudumjee Investment & Finance Company Limited (the Holding Company and its subsidiary together referred to as "the Group"), its associate and jointly controlled entities, which comprise the consolidated balance sheet as at March 31, 2019, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2019, the consolidated profit and total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>Recognition, measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 "Revenue from Contracts with Customers" (new revenue accounting standard)</p> <p>The application of the new revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, and determining when performance obligation is satisfying over time. Determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognised over a period. Additionally, new revenue accounting</p>	<p>Our procedure included, but were not limited to the following:</p> <p>We assessed the Company's process to identify the impact of adoption of the new revenue accounting standard.</p> <p>Selected a sample of continuing and new contracts and performed the following procedures:</p> <ul style="list-style-type: none"> • Read, analysed and identified the distinct performance obligations in these contracts and Compared these performance obligations with that identified and recorded by the Company.

The respective Management and Board of Directors of the companies included in the Group and of its associate and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associate and jointly controlled entities are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associate and jointly controlled entities.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material

AMJ LAND HOLDINGS LIMITED

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Misstatements can arise due to fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of a jointly controlled entity. The consolidated financial statements include the Company's share of its total assets of ₹1385.22 lakhs as at March 31, 2019, total revenue of ₹ 1528.68 lakhs, total comprehensive income (comprising of profit and other comprehensive income) of ₹ 355.89 lakhs and net cash flows/(outflow) of ₹(73.89) lakhs for the year ended on that date. The consolidated financial statements also include the Group's share of total comprehensive income (comprising of profit/ (loss) and other comprehensive income) of ₹ (3.79) lakhs for the year ended March 31, 2019 in respect of one joint venture

whose financial statements have not been audited by us. These financial statements have been audited by other auditor whose report have been furnished to us by the Management. Our opinion on the consolidated financial statements and our report in terms of sub-sections (3) of Section 143 of the Act, insofar as it relates to the amounts and disclosures included in respect of the jointly controlled entities, is based solely on the reports of the other auditors.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated cash flow statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2019 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company, associates company and jointly controlled company incorporated in India, none of the directors of the Group companies, its associate company and jointly controlled company incorporated in India is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of internal financial controls over financial reporting of the Holding Company and its subsidiary company and the operating effectiveness of such controls, refer to our separate report in Annexure A.
- (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. There were no pending litigations as at March 31, 2019, which would impact the consolidated financial position of the Group, its associates, jointly controlled entity and joint venture;
 - ii. The Group, its associates, jointly controlled entity and joint venture did not have any long-term contracts including derivative contracts as at March 31, 2019;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary company, associate companies and joint venture incorporated in India during the year ended March 31, 2019;
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Group for the year ended March 31, 2019.

Annexure A to Independent Auditors' Report

Referred to in the Independent Auditors' Report of even date to the members of AMJ Land Holdings Limited on the consolidated financial statements for the year ended March 31, 2019

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2019, we have audited the internal financial controls over financial reporting of AMJ Land Holdings Limited (hereinafter referred to as "the Holding Company") and its subsidiary company, its associate companies and jointly controlled company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company, its subsidiary company, its associate companies and jointly controlled company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary company, its associate companies and jointly controlled company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one jointly controlled company, which is company incorporated in India, is based on the corresponding reports of the auditors of such company incorporated in India. Our opinion is not qualified in respect of this matter.

Notes to the consolidated financial statements as on and for the year ended 31st March, 2019

Note 1: General information about the Group:

The consolidated financial statements comprise financial statements of AMJ Land Holdings Limited (formerly Pudumjee Pulp and Paper Mills Limited) ("the Company") and its subsidiary, associates, joint venture and joint operation (collectively, "the Group") for the year ended 31st March 2019.

The Company is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The registered office of the Company is located at Thergaon, Pune-411033, Maharashtra, India. The Group is primarily engaged in the business of real estate development, leasing of real estate, wind power and investments.

The consolidated financial statements were authorised for issue in accordance with resolution passed by the Board of Directors of the Company on May 24, 2019.

Note 2: Summary of significant accounting policies:

a. Basis of preparation

The consolidated financial statements of the Group comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

The consolidated financial statements have been prepared on the historical cost basis except for a land converted into stock-in-trade as explained in note 7, and certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either, in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

b. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiary, associates, joint operation and joint venture as at 31st March 2019. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control/ joint control over the subsidiary/ joint venture/ joint operation and ceases when the Group loses

control/ joint control of the subsidiary/ joint venture/ joint operation.

Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Company's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

Consolidation procedure:

Subsidiary

The Company combines the financial statements of the parent and its subsidiary on line-by-line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Offset (eliminate) the carrying amount of the parent's investment in subsidiary and the parent's portion of equity subsidiary. The excess of the cost to the company of its investment in the subsidiary over the company's portion of equity of the subsidiary on the acquisition date is recognised in the financial statements as goodwill and is tested for impairment annually. The excess of company's portion of equity of the subsidiary over the cost of investment therein is treated as capital reserve.

Joint Operation

The Group recognises its interest in the joint operation using the proportionate consolidation method as per Ind AS 111 - Joint Arrangements. The Group combines its proportionate share of each of the assets, liabilities, income and expenses of the joint operation with similar items, line by line, in its consolidated financial statements. This consolidation of interest in the joint operation is done in standalone financial statement of the Company itself, as required by Ind AS 111.

Associates/ Joint Venture

The Group's investment in its associates/ joint venture is accounted for using the equity method. Under the equity method, the investment in associates/ joint venture is initially recognised at cost, identifying any goodwill/ capital reserve arising at the time of acquisition. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associates/ joint venture post acquisition date. Goodwill relating to the associates/ joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associates/ joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associates/ joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associates/ joint venture are eliminated to the extent of the interest in the associates/ joint venture.

If an entity's share of losses of an associate/ joint venture equals or exceeds its interest in the associate/ joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate/ joint venture), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate/ joint venture. If the joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intra-group transactions.

c. Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

AMJ LAND HOLDINGS LIMITED

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within the operating cycle or twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within the operating cycle or twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The normal operating cycle in respect of operation relating to under construction real estate project depends on signing of the agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realisation of the project into cash and cash equivalents and range from 3 to 7 years. Accordingly, project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of 12 months.

d. Revenue Recognition

The Group derives revenues primarily from real estate projects i.e. construction and sale of real estate properties, and from leasing of real estate (together called as "Real estate business"). And from sale of wind power and renewable energy certificates (REC) (together called as "Wind power business").

Effective April 1, 2018, the Group adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised significant accounting policies related to revenue recognition.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment i.e. adjusted for discounts, incentive, time value of money and excluding taxes or duties collected on behalf of the government. No element of financing deemed present, as the sales are made with a credit term consistent with market practice. Further the Group charges interest to customers on delayed payment, if any.

Revenue from real estate projects, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Costs/ input expended have been used to measure progress towards completion as there is a direct relationship between cost incurred and creation/enhancement of asset (i.e. property). As per this method, revenue from sale of properties is recognised in proportion to the actual cost incurred as against the total estimated cost of projects under execution.

Determination of revenues under the percentage of completion method necessarily involves making estimates, some of which are of technical nature. The estimates of project cost and the revenue thereon are reviewed periodically by management and the cumulative effect of any changes in estimates is recognised in the period in

which such changes are determined. Where it is probable that total project expenses will exceed total revenues from a project, the expected loss is recognised immediately as an expense in the statement of profit and loss.

Revenue from lease of real estate, arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms.

Revenue from the sale of wind power is recognised when earned on the basis of contractual arrangement with the customers and reflects the value of electric units supplied including an estimated value of units supplied to the customers between the date of their last meter reading and year end.

e. Other income

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in other income in the statement of profit and loss.

Dividends

Income from dividend on investments is accrued in the year in which it is declared, whereby the Group's right to receive is established.

f. Trade receivables and Contract balances

The Group classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time.

Revenue from real estate projects contracts is based on percentage of completion method. Invoicing to the customers is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues). Trade receivable and unbilled revenues are presented net of impairment, if any in the Balance Sheet.

g. Property, plant and equipment

Property, plant and equipment, Capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the property, plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life as per Schedule II
Building	30	30
Plant and Machinery	25	25
Vehicles	8	8
Furniture and Fixture	10	10

The Group, based on technical assessment made by technical expert and management estimate, depreciates all the assets over estimated useful life which is also the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

h. Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated

AMJ LAND HOLDINGS LIMITED

depreciation (as applicable to building component) and accumulated impairment loss, if any. Repair and maintenance costs are recognised in profit or loss as incurred.

The Group, based on technical assessment made by technical expert and management estimate, depreciates the building over estimated useful life of 30 years, which is also the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by the management. External valuers are involved in determination of the fair values on a need basis.

i. Inventory

Inventory comprises of stock of raw material, completed properties for sale and properties under construction. Construction work-in-progress comprises cost of land, development rights, construction and development cost, cost of material, services and other overheads related to projects under construction. Inventory is valued at cost or net realizable value whichever is lower.

Land treated as stock in trade duly revalued at fair market value on the date of treatment, is carried at that value. Development expenses incurred thereon including overheads are clubbed with Construction work-in-progress.

j. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly stated in the arrangement.

Group as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

k. Taxes

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss of the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rate enacted or substantially enacted at the reporting date.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which those can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable Group and the same

taxation authority.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

I. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

m. Provisions and Contingent liability

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in the notes, if any. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

n. Employee benefits

Short-term obligations

Short-term employee benefit are expensed as the related service is provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within one year after the end of the period in which the employees render the related service are the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The Group does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly amounts have been classified as current and non current based on actuarial valuation report.

Post-employment obligations

The Group operates the following post-employment schemes:

- i. defined benefit plan - gratuity; and
- ii. defined contribution plans such as provident fund and superannuation fund.

Defined benefit plans

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The

defined benefit obligation is calculated annually by actuaries using the projected unit credit method. If the fair value of plan assets exceeds the present value of the defined benefit obligation at the end of the balance sheet date, then excess is recognized as an asset to the extent that it will lead to, for example, a reduction in future contribution to plan asset.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

Retirement benefit in the form of provident fund and superannuation fund are defined contribution schemes. The Group has no obligation, other than the contribution payable to the provident fund and superannuation fund. The Group recognizes contribution payable to the provident fund and superannuation fund as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

o. Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value, except for investment in subsidiaries, associates, joint operation or joint venture where the Group has availed option to recognise the same at cost in separate financial statements.

The classification depends on the Group's business model for managing the financial asset and the contractual terms of the cash flows. The Group classifies its financial assets in the following measurement categories:

- i. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss),
- ii. those measured at amortised cost, and
- iii. those measured at cost, in separate financial statements.

Subsequent measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. All other financial assets are measured at amortised cost, using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss.

Impairment of financial assets

The Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss financial assets that are not fair valued.

The Group follows 'simplified approach' for recognition of impairment loss for trade receivables that have no significant financing component. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized, is recognized under the head 'other expenses' in the statement of profit and loss.

The Group does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

De-recognition of financial assets

The Group derecognizes a financial asset when -

- i. the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109.
- ii. it retains contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the entity has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to extent of continuing involvement in the financial asset.

Financial liabilities

Initial recognition

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification, as described below:

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within one year after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least one year after the reporting period.

p. Earnings per share

The basic earnings per share is computed by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The Group does not have any potential equity share or warrant outstanding for the periods reported, hence diluted earnings per share is same as basic earnings per share of the Group.

q. Segment reporting

Where a financial report contains both consolidated financial statements and separate financial statements of the

AMJ LAND HOLDINGS LIMITED

parent, segment information needs to be presented only in case of consolidated financial statements. Accordingly, segment information has been provided only in the consolidated financial statements.

r. Standards issued but not yet effective

Ind AS 116 - Leases:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of profit & loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019.

The standard permits two possible methods of transition - 1) Full retrospective - Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors. 2) Modified retrospective - Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application. Certain practical expedients are available under both the methods.

On completion of evaluation of the effect of adoption of Ind AS 116, the Group is proposing to use the 'Modified Retrospective Approach' for transitioning to Ind AS 116, and take the cumulative adjustment to retained earnings, on the date of initial application (April 1, 2019). Accordingly, comparatives for the year ended March 31, 2019 will not be retrospectively adjusted. The Group has elected certain available practical expedients on transition.

The effect of adoption as on April 1, 2019 would majorly result in an increase in Right of use asset and corresponding increase in lease liability. The Group is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 12 - Income Taxes:

1) Introduction of Appendix C:

According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition - i) Full retrospective approach - Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Group will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives. The effect on adoption of Ind AS 12 Appendix C would not be material.

2) In connection with accounting for dividend distribution taxes:

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Group is currently evaluating the effect of this amendment on the financial statements.

Amendment to Ind AS 19 - Employee Benefits:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19 in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity - 1) To use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement. 2) And to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The impact on account of this amendment would not be material.

Amendments to Ind AS 109 - Financial Instruments:

1) Classification of a financial instruments with prepayment feature with negative compensation:

Negative compensation arises where the terms of the contract of the financial instrument permit the holder to make repayment or permit the lender or issuer to put the instrument to the borrower for repayment before the maturity at an amount less than the unpaid amounts of principal and interest. Earlier, there was no guidance on classification of such instruments. According to the amendments, these types of instruments can be classified as measured at amortised cost, or measured at fair value through profit or loss, or measured at fair value through other comprehensive income by the lender or issuer if the respective conditions specified under Ind AS 109 are satisfied. The impact on account of this amendment would not be material.

2) Ind AS 109 excludes interest in associates and joint ventures that are accounted for in accordance with Ind AS 28, Investments in Associates and Joint Ventures from its scope. According to the amendments, Ind AS 109 should be applied to the financial instruments, including long-term interests in associates and joint venture, that, in substance, form part of an entity's net investment in associate or joint venture, to which the equity method is not applied. The Group is currently evaluating the effect of this amendment on the financial statements.

s. Critical accounting estimates and judgements

Revenue recognition

The Group uses percentage of completion method in accounting for real estate construction contracts, since it is concluded that in such contracts the performance obligation is satisfying over time. Use of the percentage of completion method requires the Group to estimate the costs expended to date as a proportion of the total costs to be expended. Costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Impairment of Trade receivables

The Group estimates the collectability of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

Income Taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

Defined benefit obligation

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, employee turnover rate and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Also refer note 11.

Classification of joint arrangements

The joint control agreement in relation to the Pudumjee G:Corp Developers require unanimous consent from all parties for all relevant activities. The two partners have direct rights to the assets of the partnership and are jointly and severally liable for the liabilities incurred by the partnership. This entity is therefore classified as a joint operation and the Group recognises its direct right to the jointly held assets, liabilities, revenues and expenses.

Estimation of fair value

The frequency of valuations depends upon the changes in fair values of the items of investment property being valued. Since frequent valuations are unnecessary, with only insignificant changes in fair value, the company obtains independent valuation for its investment properties once in five years. The fair values of investment properties have been determined by A.D.Joshi Chartered Engineers and Valuers LLP. The fair market value done by valuers is based on physical inspection of properties and using comparable transfer instances of the similar type of properties of nearby locations, and with the prevailing market rates. Appropriate depreciation is considered for buildings.

(i) Leave obligations -

The leave obligation covers the group's liability for accumulated leaves that can be encashed or availed. The group does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly amounts have been classified as current and non current based on actuarial valuation report.

(ii) Defined benefit plans:

a Gratuity - The group provides for gratuity for employees as per the terms of employment. Employees who are in continuous service at least for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is calculated at the last drawn monthly basic salary multiplied by 15 days salary for each completed years of service of the employee. The scheme is funded with Life Insurance Corporation of India(LIC).

In addition, employees who have completed 20 years of service are eligible to additional gratuity computed at last drawn monthly basic salary multiplied by 7 days salary for each completed years of service of the employee. The additional gratuity benefit is unfunded.

The net liability disclosed above relates to unfunded plan. The group has no legal obligation to settle the deficit in the unfunded plans with an immediate contribution or additional contribution. The group intends to contribute in line with the recommendations of the fund administrator and the actuary.

ab As at March 31, 2019 and March 31, 2018, plan assets were invested in funds managed by insurer (LIC).

ac Through its defined benefit plans, the group is exposed to number of risks, the most significant of which are detailed below:

Asset Volatility: The Plan liabilities are calculated using a discount rate set with reference to government bond yields. If plan assets underperform, this yield will create a deficit. The plan asset investments are in funds managed by insurer. These are subject to interest rate risk.

Changes in bond yield: A decrease in government bond yields will increase plan liabilities, although this may be partially offset by an increase in the returns from plan asset.

Defined benefit liability and employer contributions:

ad The group ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations

**Notes to the Consolidated financial statements as on and for the year ended
31st March, 2019**

(All amounts in INR lakhs unless otherwise stated)

under the employee benefit plans. Within the framework, the group's ALM objective is to match assets to the gratuity obligations by investing in funds with LIC in the form of a qualifying insurance policy.

The group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The group has not changed the process used to manage its risks from previous periods.

ae The group expects to contribute ₹ 2 lakhs to the defined benefit plan during the next annual reporting period.

af The weighted average duration of the defined benefit obligation is 6.24 years (2018: 7.30 years). The expected maturity analysis of undiscounted pension and gratuity is as follows:

	Less than a year	Between 1 - 2	Between 2 - 5 years	Over 5 years	Total
31-Mar-19					
Defined benefit obligation gratuity	3.48	3.91	14.80	296.41	318.60
31-Mar-18					
Defined benefit obligation gratuity	3.26	3.68	15.07	359.34	381.35

The expected benefits are based on the same assumptions used to measure the group's benefit obligations as of March 31, 2019.

be The principal assumptions used for the purpose of actuarial valuation are as follows:

	31-Mar-19	31-Mar-18
India		
Discount Rate *	7.80%	7.60%
Expected Rate of Return on Plan Assets **	7.60%	7.50%
Salary Escalation Rate ***	7.00%	7.00%
Rate of Employee Turnover	1.00%	1.00%

* Discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.

** The overall expected rate of return on assets is based on the expectation of the average long term rate of return expected on investments of the Fund during the estimated term of the obligations.

*** The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors, such as demand and supply in the employment market.

bf Sensitivity analysis - the increase / (decrease) in present value of defined benefit obligation to changes in principal assumptions:

Particulars	31-Mar-19		31-Mar-18	
	Amount	%	Amount	%
- 1% increase in discount rate	(5.63)	40.30%	(4.08)	-2.63%
- 1% decrease in discount rate	6.04	-43.22%	1.17	0.76%
- 1% increase in salary escalation rate rate	4.98	-35.68%	0.72	0.46%
- 1% decrease in salary escalation rate rate	(4.77)	34.16%	(0.67)	-0.43%
- 1% increase in rate of employee turnover	0.13	-0.94%	0.04	0.03%
- 1% decrease in rate of employee turnover	(0.14)	0.97%	(0.02)	-0.01%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

(iii) Defined contribution plans:

The group also has certain defined contribution plans. Contributions are made to recognised funds for employees at the prescribed rate of basic salary as per regulations. The contributions are made to registered funds administered/approved by the government. The obligation of the group is limited to the amount contributed and it has no further contractual nor any constructive obligation. In respect of these plans, contributions paid and recognised in the Statement of Profit and Loss are as follows:

b) Fair Value Hierarchy:-

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

c) Valuation technique used to determine fair value

Level 1: This hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchange is valued using the quoted price as at the reporting date. The fair value of all mutual funds are arrived at by using closing Net Asset Value published by the respective mutual fund houses as at the reporting date.

Level 2: Fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument as observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable data, the instrument is included in level 3.

d)As per Ind AS 107 "Financial Instrument:Disclosure", fair value disclosures are not required when the carrying amounts reasonably approximate the fair value. Accordingly fair value disclosures have not been made for the following financial instruments:-

1. Trade receivables
2. Cash and cash equivalent
3. Other bank balances
4. Security deposits
5. Interest accrued on deposits
6. Other payables
7. Borrowings
8. Trade payables
9. Capital creditors
10. Unpaid dividends
11. Employee dues

Note 25:-FINANCIAL RISK MANAGEMENT

The Group's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Group's senior management has the overall responsibility for establishing and governing the Group's risk management framework. The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Group.

a. MANAGEMENT OF CREDIT RISK

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities and from its investing activities, including loans, deposits with banks and other financial instruments.

i) Trade Receivables

Trade receivables are generally unsecured. For real estate projects customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership, eliminating the credit risk in this respect.

Customer credit risk has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis. The assessment is based on historical information of defaults.

The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers operate in largely independent markets. For real estate project the Group's average execution cycle ranges from 12 to 36 months based on the nature of project. The Group's credit period generally ranges from 15-60 days.

The Group has a detailed review mechanism of overdue customer receivables at various levels within organisation to ensure proper attention and focus for realisation and based on assessment performed management has concluded that impact of expected credit loss is not material and current provision made against trade receivable is adequate to cover the provision on account of expected credit loss.

During the period, the Group made no write-offs of trade receivables. It does not expect to receive future cash flows or recoveries from receivables previously written off.

ii) Other financial assets:-

The Group maintains exposure in cash and cash equivalents, term deposits with banks, investments in money market liquid mutual funds. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Other financial assets that are potentially subject to credit risk consists of inter corporate loans. The Group assesses the recoverability from these financial assets on regular basis. Factors such as business and financial performance of counterparty, their ability to repay, regulatory changes and overall economic conditions are considered to assess future recoverability. The Group charges interest on such loans at arms length rate considering counterparty's credit rating. Based on the assessment performed, the Group considers all the outstanding balances of such financial assets to be recoverable as on balance sheet date and no provision for impairment is considered necessary.

The Group's maximum exposure to credit risk is the carrying value of each class of financial assets.

iii) Reconciliation of loss allowance provision:

Particulars	Trade receivables	Other financial assets
Loss allowance on 1 April 2018	(6.54)	-
Changes in loss allowance	-	-
Loss allowance on 31 March 2019	(6.54)	-

**Notes to the Consolidated financial statements as on and for the year ended

(All amounts in INR lakhs unless otherwise stated)

b. MANAGEMENT OF LIQUIDITY RISK

Liquidity risk is the risk that the Group will face in meeting its obligations associated with its financial liabilities. The Group's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses or risking damage to Group's reputation. In doing this, management considers both normal and stressed conditions.

Management monitors the rolling forecast of the Group's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents. The Group has access to funds from debt markets through loan from banks. The Group invests its surplus funds in bank deposits and debt based mutual funds.

The following table shows the maturity analysis of the Group's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

Contractual maturities of financial liabilities	Carrying amount	Total	Undiscounted Amount

c. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types of risk i.e. currency rate, interest rate and other price related risks. Financial instruments affected by market risk include loans and borrowings, deposits and investments.

i.) Currency Risk and sensitivity:-

The Group does not have any currency risk as all operations are within India.

ii.) Interest Rate Risk and Sensitivity:-

Interest rate risk is the risk that the fair value or future cash flows on a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the Group's interest rate position. Various variables are considered by the management in structuring the Group's investment to achieve a reasonable ,competitive, cost of funding.

Exposure to interest rate risk

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	31-Mar-19	31-Mar-18
Financial Liabilities		
Variable rate instruments	335.94	780.51
Fixed rate instruments	-	12.85
Total	335.94	793.36
Financial Assets		
Variable rate instruments	3,201.61	1,863.54
Total	3,201.61	1,863.54

Cash flow sensitivity analysis for variable rate instruments:-

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	Profit /(loss)	
	100bp increase	100bp decrease
March-19		
Financial liabilities (Variable rate instruments)	(3.36)	3.36
Financial Assets (Variable rate instruments)	32.02	(32.02)
	28.66	(28.66)
March-18		
Financial liabilities (Variable rate instruments)	(7.81)	7.81
Financial Assets (Variable rate instruments)	18.64	(18.64)
	10.83	(10.83)

The Group does not have any additional impact on equity other than impact on retained earnings.

iii) Price Risk and Sensitivity:

The Group is mainly exposed to the price risk due to its investment in debt mutual funds and investment equity instruments carried at FVOCI. The price risk arises due to uncertainties about the future market values of these investments. At 31st March 2019, the investments in debt mutual funds amounts to ₹149.29 lacs (31-Mar-2018: ₹ 956.44 lacs). These are exposed to price risk.

**Notes to the Consolidated financial statements as on and for the year ended
31st March, 2019**

(All amounts in INR lakhs unless otherwise stated)

The Group has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in debt mutual funds.

A 1% increase in prices would have led to approximately an additional ₹1.49 lacs gain in the Statement of Profit and Loss (2017-18: ₹ 9.56 lacs gain). A 1% decrease in prices would have led to an equal but opposite effect.

The Group also have investment in equities of other companies. The Group treats the investment as strategic and thus fair value the investment through OCI. Thus the changes in the market price of the securities are reflected under OCI and hence not having impact on profit and loss. The profit or loss on sale will be considered at the time of final disposal or transfer of the investment. Also investment in associates, subsidiaries and joint venture are carried at cost and consolidated using equity method.

Note 26:- Capital Risk Management

(a) Risk management

The Group's policy is to maintain an adequate capital base so as to maintain creditor and market confidence and to sustain future development. In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. Net debt comprises of long term and short term borrowings less cash and bank balances. Equity includes equity share capital and reserves that are managed as capital.

Particulars	31-Mar-19	31-Mar-18

Note 34: Segment reporting

A. Basis of Segmentation:

The Board of Directors of Holding Company examines the Group's performance based on the nature of products and services and has identified below mentioned reportable segments of its business as follows:

- (a) Real Estate Business
- (b) Wind Power Generation

**Notes to the Consolidated financial statements as on and for the year ended
31st March, 2019**

(All amounts in INR lakhs unless otherwise stated)

(c) Investment

Segment Revenue, Result, Assets and Liabilities include the respective amounts identifiable to each of the segments and amount allocated on a reasonable basis. Unallocated expenditure/income consist of common expenditure incurred for all the segments and expenses incurred or interest/investment income earned at corporate level. The assets and liabilities that cannot be allocated between the segments are shown as unallocated assets and unallocated liabilities respectively.

The accounting policies of the reportable segments are same of the group's accounting policies described in Note 2. The operating segments reported are the segments of the Group for which separate financial information is available. Profit before tax (PBT) are evaluated regularly by the CODM in deciding how to allocate resources and in assessing performance. The Group's financing (including finance costs and finance income) and income taxes are reviewed on an overall basis and are not allocated to operating segments, however finance cost relating to directly attributable specific borrowing is disclosed against respective segment. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.
